

Teardown (Mandatory Cost-Prevention Step)

Delete your resources in the following exact order to avoid orphaned dependencies:

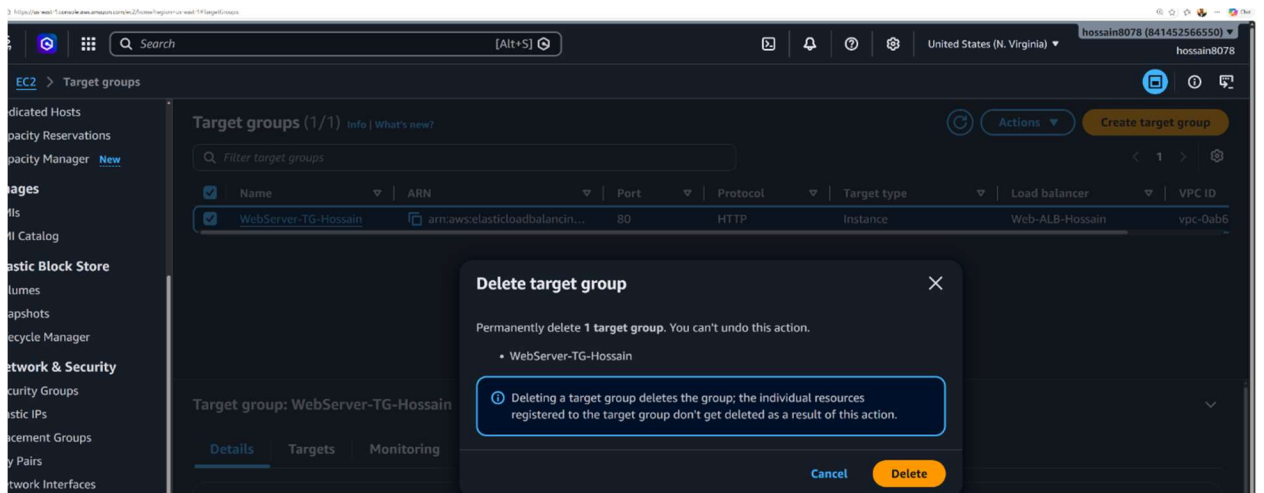

1. **Auto Scaling Group:** Go to **Auto Scaling Groups** > Select **WebServer-ASG-[YourLastName]** > **Delete** (Type delete to confirm). *Wait 2 minutes for instances to terminate.*

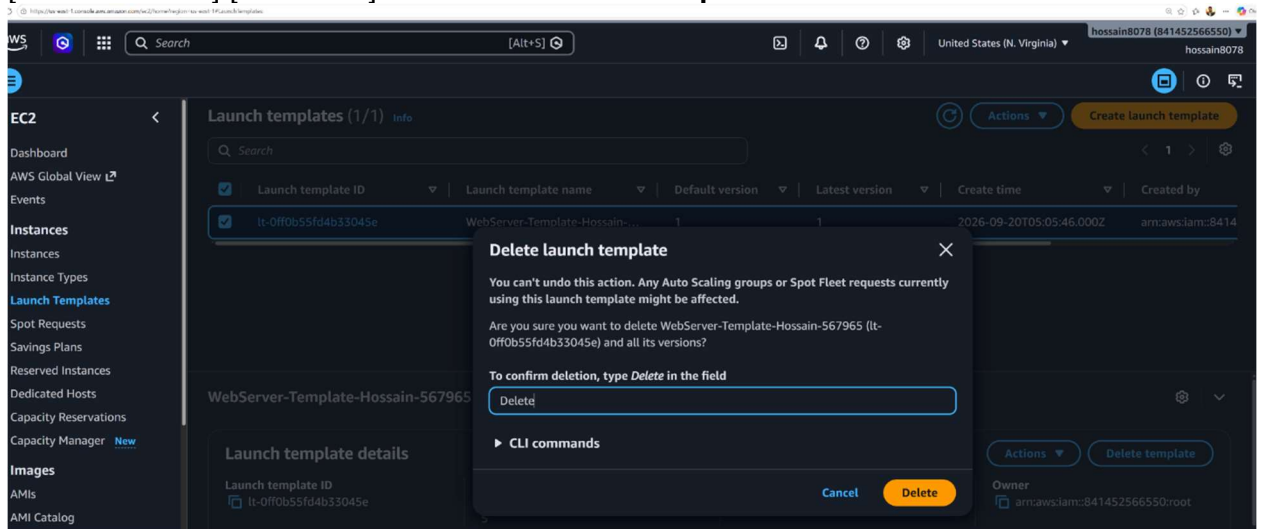

2. **Load Balancer:** Go to **Load Balancers** > Select **Web-ALB-[YourLastName]** > **Actions** > **Delete load balancer.**

3. **Target Group:** Go to **Target Groups** > Select **WebServer-TG-[YourLastName]** > **Actions** > **Delete.**

4. **Launch Template:** Go to **Launch Templates** > Select **WebServer-Template-[YourLastName]-[StudentID]** > **Actions** > **Delete template**.

5. **Security Group:** Go to **Security Groups** > Select and delete **WebServer-SG-[YourLastName]**.
